ELSEVIER

European Journal of Operational Research 94 (1996) 631–633

EUROPEAN JOURNAL OF OPERATIONAL RESEARCH

# Contents Volume 94

1 Coordinated supply chain management (Invited review)
*D.J. Thomas and P.M. Griffin*

16 A two-stage multiobjective scheduling model for [faculty–course–time] assignments
*M.A. Badri*

29 The newsstand problem: A capacitated multiple-product single-period inventory problem
*H.-S. Lau and A.H.-L. Lau*

43 Tactical design of rail freight networks. Part II: Local search methods with statistical analysis
*A. Marín and J. Salmerón*

54 An interactive Decision Support System for the Resource Constrained Scheduling Problem
*M. Norbis and J.M.G. Smith*

66 Multicriteria planar location problems
*H.W. Hamacher and S. Nickel*

87 Project selection with discounted returns and multiple constraints
*G.J. Kyparisis, S.K. Gupta and C.-M. Ip*

97 On finding a biconnected spanning planar subgraph with applications to the facilities layout problem
*O. Goldschmidt, A. Takvorian and G. Yu*

106 A new adaptive method for extrapolative forecasting algorithms
*S.N. Pantazopoulos and C.P. Pappis*

112 A ratio model for discriminant analysis using linear programming
*D.L. Retzlaff-Roberts*

122 The coordinated replenishment dynamic lot-sizing problem with quantity discounts
*C.-S. Chung, S.-H. Hum and O. Kirca*

134 Quadratically constrained convex quadratic programmes: faulty feasible regions
*R.J. Caron and W.T. Obuchowska*

143 The maximization of a function over the efficient set via a penalty function approach
*D.J. White*

154 Maximizing a submodular function by integer programming: Polyhedral results for the quadratic case
*H. Lee, G.L. Nemhauser and Y. Wang*

167 Duality and sensitivity in nonconvex quadratic optimization over an ellipsoid
*O.E. Flippo and B. Jansen*

179 Towards economically optimal first-off inspection
*J. Sheil*

186 The number of feasible designs in a compatibility matrix
*J. Singhal and K. Singhal*

194 Generating pseudo-random time series with specified marginal distributions
*W.T. Song, L.-C. Hsiao and Y.-J. Chen*

203 A note on the complexity of single-machine scheduling with a common due date, earliness–tardiness, and batch delivery costs
*J. Yuan*

206 OR Software – ORSEP Operations Research Software Exchange Program, *Professor H.W. Hamacher (ed.)*
ACCPM – A library for convex optimization based on an analytic center cutting plane method
*J. Gondzio, O. du Merle, R. Sarkissian and J.-P. Vial*

212 Call for Papers – EURO Best Applied Paper Competition 1997

## Feature Issue: Scheduling in Computer and Manufacturing Systems

213 Dagstuhl Seminar on "Scheduling in Computer and Manufacturing Systems"
*J. Błażewicz, K. Ecker and J. Węglarz*
215 Scheduling multiprocessor tasks – An overview
*M. Drozdowski*
231 Scheduling multiprocessor tasks with chain constraints
*J. Błażewicz and Z. Liu*
242 Preemptive versus nonpreemptive scheduling of biprocessor tasks on dedicated processors
*M. Kubale*
252 On the complexity of scheduling with large communication delays
*E. Bampis, A. Giannakos and J.-C. König*
261 Minimizing the overhead for some tree-scheduling problems
*E. Bampis, F. Guinand and D. Trystram*
271 Scheduling tasks and communications on a virtual distributed system
*J.-Y. Colin and P. Colin*
277 Single machine scheduling with batch deliveries
*T.C.E. Cheng, V.S. Gordon and M.Y. Kovalyov*
284 Single machine scheduling subject to deadlines and resource dependent processing times
*A. Janiak and M.Y. Kovalyov*
292 A decision theory based scheduling procedure for single-machine weighted earliness and tardiness problems
*V. Sridharan and Z. Zhou*
302 Discrete-continuous scheduling problems – Mean completion time results
*J. Józefowska and J. Węglarz*
310 Total completion time minimization in two-machine job shops with unit-time operations
*W. Kubiak and V. Timkovsky*

321 Agricultural product development using multidimensional and multicriteria analyses: The case of wine
*G. Baourakis, N.F. Matsatsinis and Y. Siskos*
335 Tool allocation and machining conditions optimization for CNC machines
*M.S. Akturk and S. Avci*
349 Comparison of iterative improvement techniques for schedule optimization
*J. Dorn, M. Girsch, G. Skele and W. Slany*
362 A robustness approach to uncapacitated network design problems
*G.J. Gutiérrez, P. Kouvelis and A.A. Kurawarwala*
377 A note on "Hierarchical models for multi-project planning and scheduling"
*S. Hartmann and A. Sprecher*
384 A low-rank bilinear programming approach for sub-optimal solution of the quadratic assignment problem
*A. Torki, Y. Yajima and T. Enkawa*
392 A genetic algorithm for the set covering problem
*J.E. Beasley and P.C. Chu*
405 PAC-learning a decision tree with pruning
*H. Kim and G.J. Koehler*
419 Book Reviews

425 Imperfect maintenance (Invited Review)
*H. Pham and H. Wang*
439 Assessing the comparative spatial disadvantage (CSD) of regions in the European Union using non-radial data envelopment analysis methods
*A.D. Athanassopoulos*
453 Resource allocation to defensive marketing and manufacturing strategies
*K.R. Kumar and G.C. Hadjinicola*
467 A model for the relative importance of the criteria in the Multiplicative AHP and SMART
*F.A. Lootsma*
477 Reducing performance variation in the canning problem
*F.J. Arcelus and M.A. Rahim*
488 Approximate representation of probabilistic data in expert systems
*S. Sarkar, H. Mendelson and V.C. Storey*

505 Combining ranked mean value forecasts
*M. Mostaghimi*
527 A periodic review inventory system with two supply modes
*C. Chiang and G.J. Gutierrez*
548 Staged and constrained two-dimensional guillotine cutting problems: An AND/OR-graph approach
*R. Morabito and M.N. Arenales*
561 Mixed integer programming model formulations for dynamic multi-item multi-level capacitated lotsizing
*H. Stadtler*
594 Multiobjective programming in optimization of interval objective functions – A generalized approach
*S. Chanas and D. Kuchta*
599 Comparing the predictive validity of alternatively assessed multi-attribute preference models when relevant decision attributes are missing
*P.C. Fry, D.B. Rinks and J.L. Ringuest*
610 Kuratowski convergence of the efficient sets in the parametric linear vector semi-infinite optimization
*M.I. Todorov*
618 Evolution program for deterministic and stochastic optimations
*M. Gen, B. Liu and K. Ida*
626 Conditions for government support of private research and development
*P. Joglekar and M. Hamburg*
517 A tree search algorithm for the crew scheduling problem
*J.E. Beasley and B. Cao*
582 Tight linear programming relaxations of uncapacitated $p$-hub median problems
*D. Skorin-Kapov, J. Skorin-Kapov and M. O'Kelly*
631 Contents Volume 94
